

VITAL STATISTICS ON CONGRESS 2005-2006

Written by three of the nation's best-known and most respected political scientists, *Vital Statistics on Congress 2005-2006* is the definitive source of essential information for all who watch Congress—as citizens, journalists, political scientists, students, lobbyists, and even the staff and members of the institution. The volume is an invaluable tool for observing and evaluating the changing shape of politics and the legislative branch of government. The twelfth edition is updated to include new statistical information on

the 2004 elections and the 109th Congress. More than 100 tables and figures illustrate the dramatic changes taking place in Congress. In addition to the chapters on the members of Congress, elections, campaign finance, committees, the congressional staff, Congress's workload, budgeting, and voting alignments, this edition contains an introductory essay that describes Congress during three key eras over the past fifty years and identifies the major changes and patterns of stability in that period.

NORMAN J. ORNSTEIN is a resident scholar at the American Enterprise Institute for Public Policy Research. He writes a weekly column for *Roll Call* called "Congress Inside Out" and serves as election analyst for CBS News. His recent books include *The Broken Branch: How Congress Is Failing America and How to Get It Back On Track*.

THOMAS E. MANN is the W. Averell Harriman Chair and Senior Fellow in Governance Studies at The Brookings Institution. His recent books include *The New Campaign Finance Sourcebook*, *Party Lines: Competition, Partisanship, and Congressional Redistricting*, and with Norman J. Ornstein, *The Broken Branch: How Congress Is Failing American and How To Get It Back On Track*.

MICHAEL J. MALBIN is executive director of the Campaign Finance Institute, a nonpartisan research institute in Washington D.C., and professor of political science at the University at Albany, State University of New York. His most recent book is *The Election After Reform: Money, Politics and the Bipartisan Campaign Reform Act (2006)*.

"VITAL STATISTICS has become the place where scholars begin their search for authoritative evidence of the stability and change in congressional politics."

— Richard F. Fenno
